

Oyster Name: Standish Shore Petites

Origin: Duxbury Bay, Massachusetts

Size: 2 1/2 inch.

Appearance: Small size, teardrop shape

Flavor Profile: The perfect balance of sweet buttery flavor and texture with a pleasant ocean flavor – The finish is clean and salty

Comments: 2mm seed is upwelled in May, and then placed in Vexar nursery bags until the fall. In October they are planted directly on the tidal flats. To harvest we hand-pick at low tide or drag during higher tides. Standish Oysters are purged offbottom for at least 2 days. Time to market: 1 ½ to 2 years
