

**Oyster Name:** Cape Blue

**Origin:** Damariscotta River Estuary, Maine

**Size:** 2-3 inch

**Appearance:** petite 2-3" shell, 4-5 years old, often green

**Flavor Profile:** fresh, firm meat, super briny

**Comments:** Grown on granite ledge in high current area of the middle Damariscotta River Estuary. These oysters are planted small and grow slowly due to the cold water temperatures, producing a petite 'boutique' oyster with exceptional shell hardness and maturity of body.
